Dear Stu:

This month you completed your fifteenth year with the Organization. As you will note from information on file at the Bureau, at this time you may exercise your option to remain or not to remain a member of the Organization's Retirement and Disability System for the balance of your Agency career. If you should elect not to remain in it, you would revert to the regular Civil Service Retirement System under which you were covered previously.

Since you will have had over thirty years of Federal service at age 60, your retirement would normally be effective at that age under either System, but the financial benefits to you would be greater under the Organization System.

The attached notification from the Office of Personnel requests your decision. Please sign and check the appropriate box and return both copies of the attached to Headquarters.

Sincerely,

Acting Director
